In a buoyant market, growth across all trading segments

In a very favourable online marketing environment, **Antevenio** has profited from its leading position and the accuracy of its offerings.

Antevenio Media has thus made very rapid progress, thanks especially to the network audience of Antevenio's partner sites (180 sites as at end of June 2007), which has risen from 5 million to over 7 million Single Visitors a month between June 2006 and June 2007.

In line with the strategy announced at its flotation, **Antevenio's** business has accelerated following the integration of Netfilia, the Spanish affiliation leader. Over the first six months of the year, Netfilia's revenue totalled €0.58 million, up by 82%.

2007: strong growth prospects confirmed

This excellent start to its financial year has given **Antevenio** a boost for its 2007 targets: this should be another year of double-digit growth.

Next meeting:

Antevenio will present its half-year results on 2 October 2007 (after the stock market closes).
